Ben Shabi

Full Stack Developer

benshabi@outlook.com   https://il.linkedin.com/in/ben-shabi-668681106   0524656136

I am a highly motivated full-stack developer with strong self-learning abilities, passionate about technology and continuously expanding my skills.

WORK EXPERIENCE

Cellcom, Netanya - Full Stack Developer

Apr 2022 - Current

- Development of web components for both mobile and desktops.
- Utilized C# along with Web API in .NET Core for backend development, ensuring efficient and scalable RESTful services.
- Implemented React, SCSS, and Redux to create highly interactive and customizable front-end experiences for content management systems, ensuring efficient state management and seamless user interactions.MongoDB and PostgreSQL for the DB, EPiServer CMS for the front end, and Git for version control.
- Experience working in an Azure DevOps cloud environment.
- Developed and integrated login systems using industry-standard protocols (e.g., OAuth, JWT) to authenticate users securely.
- Configured Redis cache to store frequently accessed data, reducing database load and improving response times.
- Designed and developed Windows services to automate background tasks and enhance system functionality.
- Utilized Docker and Kubernetes for containerization and orchestration of microservices, optimizing deployment and scaling processes.

Freelance - Full-stack

May 2021 - Apr 2022

Azure Integration - SAAS Platform for managing subscribers within Azure DevOps

- Provided front-end website development using Next JS.
- Designed REST calls using React to streamline user interface performance
- Worked with developers to integrate resources within projects using Azure and Azure DevOps.

"Hilo Student" - Custom blog to connect teachers and students all over the world

- Develop end-2-end web applications using Next JS, React-Redux, NodeJS.
- Designed, implemented, and monitored web pages, plugins, and functionality for continuous improvement.

Ministry of Defense - NOC Engineer

Aug 2017 - May 2021

- Monitored and maintained network and software components according to established guidelines.
- Worked with sustaining engineering teams to investigate and resolve software and hardware defects

EDUCATION

Practical - Software Engineer- Afeka Tel Aviv Academic College of Engineering

Oct 2018 - Oct 2020

Final project - SaaS Platform for tracking football players' performance using electronic devices

SKILLS

- Frontend development: React, Javascript, TypeScript, Html, CSS. SCSS, Bootstrap
- Backend development: Asp.net, .net 6, Mysql, MongoDB, Postgres, MicroServices, WindowsService
- Cloud services: Azure, Git
